SELECTING YOUR COLOURS

TIPS ON HOW TO SELECT THE
RIGHT COLOURS FOR YOU

1- START WITH THE INTERIORS

We live most of our lives within our homes, so it's important to select colours that you love inside. Think about the colours that resonate best with you and that you've loved over time, chances are you'll continue to love these in the future too.

3 - LET THE COLOUR GUIDE YOU

If you love bringing colour into your home through furniture then think about how these work against different background colours. Colourful furniture will pop beautifully against both darker and lighter schemes whilst neutral furniture will work best with lighter schemes creating a cool coastal or earthy vibe.

2 - DON'T BE AFRAID TO EXPLORE

A number of our internal colour schemes mix both light with some contrasting darker elements that add contrast and excitement to a room. A mixed colour palette can work well when complimented with a combination of light and dark furniture brought to life with accents of colours.

4 - MATCH EXTERNALS WITH YOUR INTERNAL SCHEME

If you're going for a lighter brighter natural tone then lighter external colours will carry a cohesive aesthetic throughout your home, whilst pairing a darker external colour palette with a lighter internal scheme can add an sense of surprise and delight.

STEP 6
ENJOY YOUR INCLUSIONS

Our thoughtful and carefully selected inclusions have been designed to enhance your living experience and bring comfort and joy to every moment.
